Have you made the decision that it is time for a change of view with your landscape? Has your curb appeal lost the luster it once had and needs a drastic change? From drastic to minimal, we can help in this area. Maybe it is a drainage issue that you are experiencing, or maybe just tired of getting the mower out. Whatever your reason is we can create, reinvent your view, and put a stunning new appeal back into the neighborhood. This design is full of interest, textures, and great plant material, in actually a very small area. We added landscape lighting to brighten the area which created 24-hour beauty. Now this front yard now has very little maintenance needed. It may be small, but the impact is huge! Not only was the design an amazing upgrade, we also took care of the drainage issue at the same time. We modified the existing sprinkler system, which now can properly accommodate the new landscape planting, resulting in a great show stopping, updated landscape. Let us know if you are ready to make your landscape a “show stopper” and become the neighbors that everyone is talking about!

Please always remain our extra set of eyes and keep your ears open to hear what your landscape is saying. Since we cannot always be there, you will be the first to notice if things have changed or something doesn't appear to be right. With regards to irrigation, dry spots can show up fast. It could be heads that need to be replaced or moved, or is there a shrub that may be blocking the spray pattern? Always feel free to contact us for repairs, suggestions, consultation, or upgrades.

We are still performing our seasonal pruning to all our regular customers. If you need some extra pruning that has not been discussed, or are new to LBD, please let us know what you would like to have done. Since it is now the outdoor entertaining season, we strive for every customer to enjoy their landscaped space to the fullest degree.

Please also keep your eyes open to insect and disease issues, they also happen extremely fast and the sooner we are made aware of them, the sooner we will address accordingly. If your lawn, trees, or shrubs become stressed from heat or lack of water, that is when the issue of insects and disease become apparent, so keep us informed of strange things are noticed.

Remember that LBD Landscaping, LLC is a full service and all phase landscape construction company. Estimates are always free and should you need help bringing your ideas, dreams, thoughts or plans to reality, please contact us either by phone or email, so that you can “Experience Landscape Excellence”!
